

## **Andrew Henreid**

Mr. Henreid is employed with the Department of Medicine, Research at Cedars-Sinai as an associate in the Health Services Research division. Working across varying phases of quantitative and qualitative investigation; he oversees subject recruitment and observation in Cedars-Sinai's Emergency Department, including design and composition of scientific publications for various projects centered around diagnostic processes, clinical QI, information science, digital health, cognition, and machine intelligence.

Mr. Henreid graduated from Loyola Marymount University with a bachelor's degree in psychology and a focus in cognitive neuropsychology.

Certified as an Emergency Medical Technician since 2014, Mr. Henreid maintains his national and state licensure as an EMT under Los Angeles County EMS. His clinical experience is foremost as an emergency first-responder throughout multiple dimensions of BLS and ALS ambulance services, treating patients that have sustained medical or traumatic injury, requiring rapid prehospital assessment and transport from the field to the emergency department. In 2017, he accepted to a year-long, dual medical-education fellowship program in Jerusalem where he engaged in clinical & pedagogical duties through Hadassah Medical Center of the Hebrew University and the Ministry of Education.

His future aims are to pursue a doctoral degree within the cognitive sciences, in developing an interdisciplinary career that integrates the social and health sciences.

Originally from Sacramento, CA, he also enjoys traveling, reading, hiking, and occasionally the Sacramento Kings.
