

Brandy Bautista

Brandy Bautista (she/her) was born and raised in Southern California. She is a first-gen student that graduated cum laude in 2017 from California State University Fullerton with a B.A. in Women and Gender Studies and a minor in Political Science. Her passion lies in working with non-profits to ensure everyone, regardless of who or where they are, has access to safe, non-judgmental sexual and reproductive healthcare. Previously, Brandy worked at Planned Parenthood Orange and San Bernardino Counties as an Administrative Medical Assistant, where she worked directly with patients seeking sexual and reproductive healthcare and primary care services. In 2021, Brandy joined the Reproductive Health Access Project (RHAP) where she is now the Senior Program Coordinator. At RHAP, Brandy works with a team to lead the Reproductive Health Care and Advocacy fellowship, a year-long program that trains family medicine leaders to provide, promote, and teach full-spectrum reproductive health care within family medicine. Brandy also works to develop and maintain RHAP's vast library of resources that includes patient education fact sheets, clinical tools, and continuing education workshops.
