

## **Noe Galvan**

Dr. Noe Galvan is originally from Boise, Idaho. He is a graduate of the University of Idaho where he majored in Animal and Veterinary Sciences and Microbiology. During this time, he researched prion diseases and completed a 2-year fellowship at the National Centers for Disease Control and Prevention (CDC) in Atlanta, GA working as a laboratory epidemiology researcher. Continuing his passion for Veterinary Medicine, he attended the University of Wisconsin, School of Veterinary Medicine and obtained his Doctorate of Veterinary Medicine degree.

Following Veterinary Medical School, Dr. Galvan received additional training as he completed a rotating internship at the University of Missouri, College of Veterinary Medicine. Upon graduation, Dr. Galvan moved to Houston, Texas and briefly worked in small animal private practice until transitioning to a career in emergency and critical care for the past 10 years. His career also took him on a brief stop to Chicago where he taught and trained interns while working in specialty referral medicine. Dr. Galvan is active in the World Vets organization and has traveled to Brazil and Peru providing much needed Rabies community outreach education as well as high volume spay/neuter services.

Dr. Galvan is passionate about Public Health and is excited to be part of the UCLA Fielding School of Public Health. He is interested in global health, emerging infectious diseases, zoonotic diseases, as well as studying health disparities in the Mexican American community. Outside of work, Dr. Galvan enjoys Olympic weightlifting, traveling to exotic destinations, and spending time with his partner, Mark and their two French Bulldogs, Chihuahua, Standard Schnauzer, and Pointer Mix. Dr. Galvan currently resides in Austin, Texas but loves sunny Southern California.
